MOUIEZUDDIN KILLEDAR

Full Stack Python Developer | Django | Flask | React JS | REST API | AI Integration

Bijapur, Karnataka | +91 8867555660 | killedarmouiezuddin@gmail.com
GitHub: github.com/Mouiezuddin | Portfolio: mouiezuddinportfolio.netlify.app | LinkedIn: linkedin.com/in/mouiezuddin-killedar-660mk

CAREER OBJECTIVE

Motivated BCA graduate (GPA: 8.5/10.0) with hands-on internship and freelance experience building and deploying 8+ production-grade web applications. Skilled in Python, Django, Flask, React JS, PostgreSQL, JWT/RBAC authentication, and CI/CD pipelines. Eager to join a product company or MNC as a Software Engineer or Full Stack Developer and grow through real-world engineering challenges.

TECHNICAL SKILLS

Programming & DBs:	Python, JavaScript (ES6+), HTML5, CSS3, SQL, PostgreSQL, MySQL, SQLite, Django ORM
Backend & Security:	Django 5.0, Flask, Django REST Framework (DRF), REST API Design, JWT, OAuth2, RBAC, CSRF
Frontend & PWA:	React 19, Vite 6, Tailwind CSS, Bootstrap 5, PWA Workbox, Responsive Design
AI & DevOps Tools:	scikit-learn, Generative AI, Git, GitHub, Docker, Postman, Pytest TDD, Render, Netlify, GitHub Actions

EXPERIENCE

Freelance Full Stack Developer **June 2026 – Present**

Royal Enterprises (Client Project)

- Delivered enterprise-grade inventory & sales portal for battery, inverter, solar, and lighting retail client; live at royalenterprise.netlify.app
- Built real-time stock tracking with threshold alerts, audit-logged stock in/out, and WhatsApp digital receipts for customer purchases & warranties.
- Engineered BatteryHub AI Sales Analyst chatbot (English & Hinglish) for sales, best-seller, dead-stock, and reorder insights.
- Implemented Instagram-style installable PWA with offline support, plus JWT token rotation, RBAC (Admin/Staff), and brute-force lockout security.

Full Stack Developer Intern **January 2026 – May 2026**

Innoovatum (Remote)

- Built and deployed 8 production-grade web applications using Django and Flask; served 2,000+ combined monthly active users with 99.5% uptime across 3+ live deployments.
- Developed secure REST APIs with DRF using JWT authentication, OAuth2, and RBAC across 5 user roles (Admin, Librarian, Member, Customer, Staff).
- Optimized PostgreSQL queries via Django ORM indexing and raw SQL refactoring — reduced API latency from 800ms to 200ms (75%) and search time from 2.5s to 0.3s (88%).
- Practiced TDD with Pytest, validated APIs via Postman, and maintained CI/CD pipelines using GitHub Actions with feature-branch Git workflow and peer code reviews.

FEATURED PRODUCTION PROJECTS

Royal Enterprises — Battery & Lighting Stock Management System *React 19, Vite 6, Tailwind CSS, Django 5.0, DRF, PostgreSQL, Netlify, Render*

- Full-stack inventory & sales portal featuring real-time stock tracking (Okaya, Exide, Amaron), 1-click WhatsApp receipts, BatteryHub AI Sales Analyst chatbot in English & Hinglish, installable PWA with offline support, and JWT/RBAC security. Live: https://royalenterprise.netlify.app/

EDUCATION

Bachelor of Computer Applications (BCA) | GPA: 8.5 / 10.0 **Completed: June 2026**

Kumudben Darbar College, Rani Channamma University, Belagavi

Pre-University Certificate (PUC), Science Darbar Pre-University College

CERTIFICATIONS

- Generative AI for Everyone – Coursera, 2025 (AI fundamentals, prompt engineering, AI integration)
- Microsoft Copilot for Security – Microsoft, 2025 (AI-powered security, threat detection)
- Data Analyst 101 – Certificate Code: 8615099 (SQL, Python, data analysis, visualization)
