MOUIEZUDDIN KILLEDAR

Software Engineer // Full Stack Python Developer

Email: killedarmouiezuddin@gmail.com | Phone: +91 8867555660 | Location: Bijapur, Karnataka, India
GitHub: github.com/Mouiezuddin | Portfolio: mouiezuddin-portfolio.vercel.app

PROFESSIONAL SUMMARY

Full Stack Python Developer with internship experience designing and deploying 8+ production-grade web applications. Proven capabilities in architecting scalable backends via Django REST Framework, building rich state-driven frontends using React JS, and conducting database optimization reducing API response latency by 75%. Experienced in robust role-based access controls, security auditing, and test-driven agile software development cycles.

TECHNICAL COMPETENCIES

Backend Systems: Python, Django, Flask, Django REST Framework (DRF), PostgreSQL, SQLite, JWT Auth, RBAC
Frontend & Web: React 19, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap 5
DevOps & Testing: Docker, Git & GitHub, GitHub Actions, Render Cloud, Postman Client, Pytest (TDD), Vitest

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern **02/2024 – 04/2024**
Innoovatum (Remote)

- Designed and deployed 8 production-grade applications serving 2000+ combined monthly active users.
- Built robust DRF APIs with secure JWT authentication and granular role-based authorization (RBAC) rules.
- Optimized ORM lookups, indices, and raw SQL queries, decreasing API endpoint response latency by 75% (800ms to 200ms).
- Configured full-text search indexes on database layers, reducing data retrieval latency down to 0.3 seconds.
- Collaborated in agile sprint cycles using git branches, code reviews, CI pipelines, and writing pytest test suites.

FEATURED PRODUCTION PROJECTS

HisabPoint — Digital Bahi Khata & Cloud Ledger *React 19, TypeScript, Django REST, PostgreSQL, Vite*

- Architected ACID-compliant cloud ledger for retail merchants using DRF & PostgreSQL atomic transactions. Optimized checkout query latency to <200ms via composite indexing. Dual-enforced 2FA fraud lockout security.

Library Management System *Django, SQLite, Bootstrap 5, Render*

- Replaced manual spreadsheet workflows, supporting 50+ concurrent users with multi-role RBAC. Built full CRUD operations and full-text search, reducing search latency to 0.3s. Deployed live on Render.

Restaurant Ordering & Backend System *Django, PostgreSQL, React JS, REST API*

- E-commerce application with menu catalogs, inventory tracking, secure order placement, and integration of payment routing. Supports 3 custom user roles and handles up to 500+ concurrent order pipelines.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Applications (BCA) **Completed 06/2026**
Kumudben Darbar College, Rani Channamma University, Belagavi | GPA: 8.5 / 10.0

Professional Certifications:

- Generative AI for Everyone (Coursera, 2025)
- Microsoft Copilot for Security (Microsoft, 2025)
- Data Analyst 101 Certificate (Verification Code: 8615099)
